

# LEE MURPHY

To my fellow Delawareans,

When I ran for Congress, I did so after spending 35 years working on the railroad at Amtrak. That experience taught me how to listen to regular, hard-working people and gave me a direct look at how disconnected Washington has become from the daily realities facing families across our state.

From New Castle County down to the towns of Sussex, voters are tired of standard political theater.

## They want principled, common-sense leadership

Our party and our state require leaders with genuine backbone. We have all witnessed candidates who campaign on strong platforms at home, only to compromise their principles and yield to the political establishment the moment they cross state lines. Delaware cannot afford representation that shifts with the political wind. Not to worry! Because it's a new day for Delaware!

## **It is for this reason that I am proud to formally endorse Dr. Mike Katz for the United States Senate.**

Dr. Katz is a dedicated public servant, a pediatric anesthesiologist, a business owner, and a true servant leader. He has spent his entire career putting the well-being of others first, listening to his community, and solving complex problems under pressure.

He is a political outsider whose commitment to core conservative values—strict fiscal responsibility, individual liberty, limited government, and secure borders—is unwavering. He is not interested in accolades from the Washington elite; he is focused entirely on delivering results for the people of Delaware.

This election, however, extends beyond a single seat in Washington. We are currently engaged in a critical effort to preserve the balance of power right here at home. We need a smart, resilient leader at the top of our ticket who possesses the capability to build broad coalitions and unify our party.

Dr. Katz has the unique ability to mobilize voters across the state, which will ultimately help us support our down-ballot candidates and protect the Delaware legislature from a one-sided supermajority.

Throughout my time on the campaign trail, my focus has always been simple: control wasteful spending, protect our economy, and bring a practical approach to government. I know Dr. Mike Katz shares these exact priorities. He is a leader of integrity who answers directly to the voters, not to special interests or party insiders.

We have a rare opportunity to restore balance to Dover and bring steadfast leadership to Washington.

I am excited to join Mike on the campaign trail to meet with voters and deliver this message across the First State.

I urge all Delawareans to join me in supporting a leader we can trust to stand his ground, and to vote for Dr. Mike Katz for U.S. Senate.

Sincerely

Lee Murphy  
Former 2x Republican Nominee for U.S. House of Representatives, Delaware
